OUR MISSION

Keeping in mind the emerging social, cultural, and economic changes; we at Nehru International Public School (NIPS) strive to impart value-based learning experiences through Modern Education. We encourage each child to succeed by expanding their abilities. We also ensure the development of each student's potential to its fullest extent. Our focus is to provide stimulating knowledge that helps in proper grooming of the child's social, intellectual, emotional and cognitive skills, thereby preparing them for real-life challenges.

OUR VISION

We are a team of highly dedicated professionals committed to lending a hand in our nation's growth by setting forth quality education. While not forgetting to instill a fine blend of human values, i.e. discipline, ethics, high morals and compassion for raising responsible citizens.

REASON TO CHOOSE NIPS

Holistic Development of Child :

“Education cannot be effective unless it helps a child open up himself to life”

With the changing times, we look for holistic and effective development of skills and talents along with academic excellence. It enables to recognize students' unique strengths and treats them all equally.

Located in the Heart of the City :

NIPS is located at the heart of the city giving access to all sectors of nearby locations.

Exemplary Discipline and Ethics :

“The Importance of teaching Ethics and Discipline to our children today will determine how they will behave when they become adults ”

At NIPS it's our responsibility to provide moral education to our children as early as possible. Children learn ethics but teaching from childhood the sense of fairness, sense of honesty and other good values will help them to follow it in their life as they grow and it will stay with them forever. Moreover, Discipline is the number one trait needed to create a happy mood, and healthy and meaningful life. Here we focus on creating disciplined individuals as we believe that Without discipline, it's impossible to achieve any kind of success; whether it's in our personal life or in our professional life. Discipline is what gives us the ability to follow through our decisions, without changing our mind.

Excellent Standard of Teaching since 2 Decades :

“ Effective schools are only ‘effective’ to the extent that they have ‘effective teachers .”

NIPS establishes a safe and stimulating environment for pupils, rooted in mutual respect . It demonstrates consistently the positive attitudes, values and behaviour since nearly two decades.

Conducive and Motivating Learning Environment :

The learning environment takes care of balancing social, physical and psychological components to make learners interested and in turn gain new knowledge or skills. The stress free environment makes learners feel appreciated, accepted and important.
